*The HAJ Forum is a Members Only benefit ... and we'll let the members speak for themselves on the HAJ Forum's value in their practice .....*

*"For a small work comp office, the HAJ Forum is a wonder. I regularly have my questions answered within the day that my inquiry is posted. No question is too little or too big. I regularly call other HAJ attorneys who have posted questions or need assistance. In fact due to the HAJ Forum it seems I now have over 100 non-paid partners in my firm. Such a deal!....."*

*"I saved about 6-8 hours of research and writing just two weeks ago, when a HAJ member responded to my forum inquiry within 1 day by e-mailing me a brief that was directly on point with a new issue I was facing."*

*“As a lawyer still learning the art of practicing personal injury law, the forum is an indispensable part of my continuing legal education. The ability to ask questions and receive immediate advice from more experienced attorneys is truly a unique opportunity.”*

*“A while ago we had a question regarding the probate code’s limitation of claims against a decedent tortfeasor’s estate. We thought the tort claim limitations period had expired. A query to the HAJ Forum promptly resulted in resurrecting a case we thought was a lost cause.”*

*“HAJ continues to be invaluable to my solo practice. The ability to post an inquiry and get several responses is akin to membership in a firm that provides you with multiple seasoned practitioners as mentors. Also, a HAJ posting regarding a case (I did not believe to have merit) resulted feedback that identified the case as one with great value for my client.”*

*“This forum was very helpful in getting plans to reduce their liens. Without input and form letters from the group, I would not have been able to get the additional money to my clients. Also, getting input from others as to their experiences and opinions is priceless.”*
